- Collaborate with international agencies to bring in eco sustainable community development solutions to India
- Contribute to Govt's " Make in India" efforts as the "Bridge"

THE TECH GAP

How to
Bridge the
GAP
between
Technology
Developers,
seekers &
end users ?

- A modern definition of technology
- The five disciplines of tech selling

Ready ?

Let's break some myths

First

Technology is expensive

Second

Tech is exclusive

Finally

Tech is not sustainable –
Rapidly changing

So **what exactly** is Tech ?

We believe

Technology is a person's gut feeling about a product, services (selling/reselling/white labelling/branding) or organisation

So who will build that gut feeling to make the technology reachable to users/consumers?

We!
in
ConsulSys

Because we have
Mastered the five
Disciplines of
Technology selling

One: Differentiate

Two: Collaborate

Three: Innovate

Four: Validate

Five: Cultivate

Differentiated ?

Cultivated ?

Collaborated ?

Innovated ?

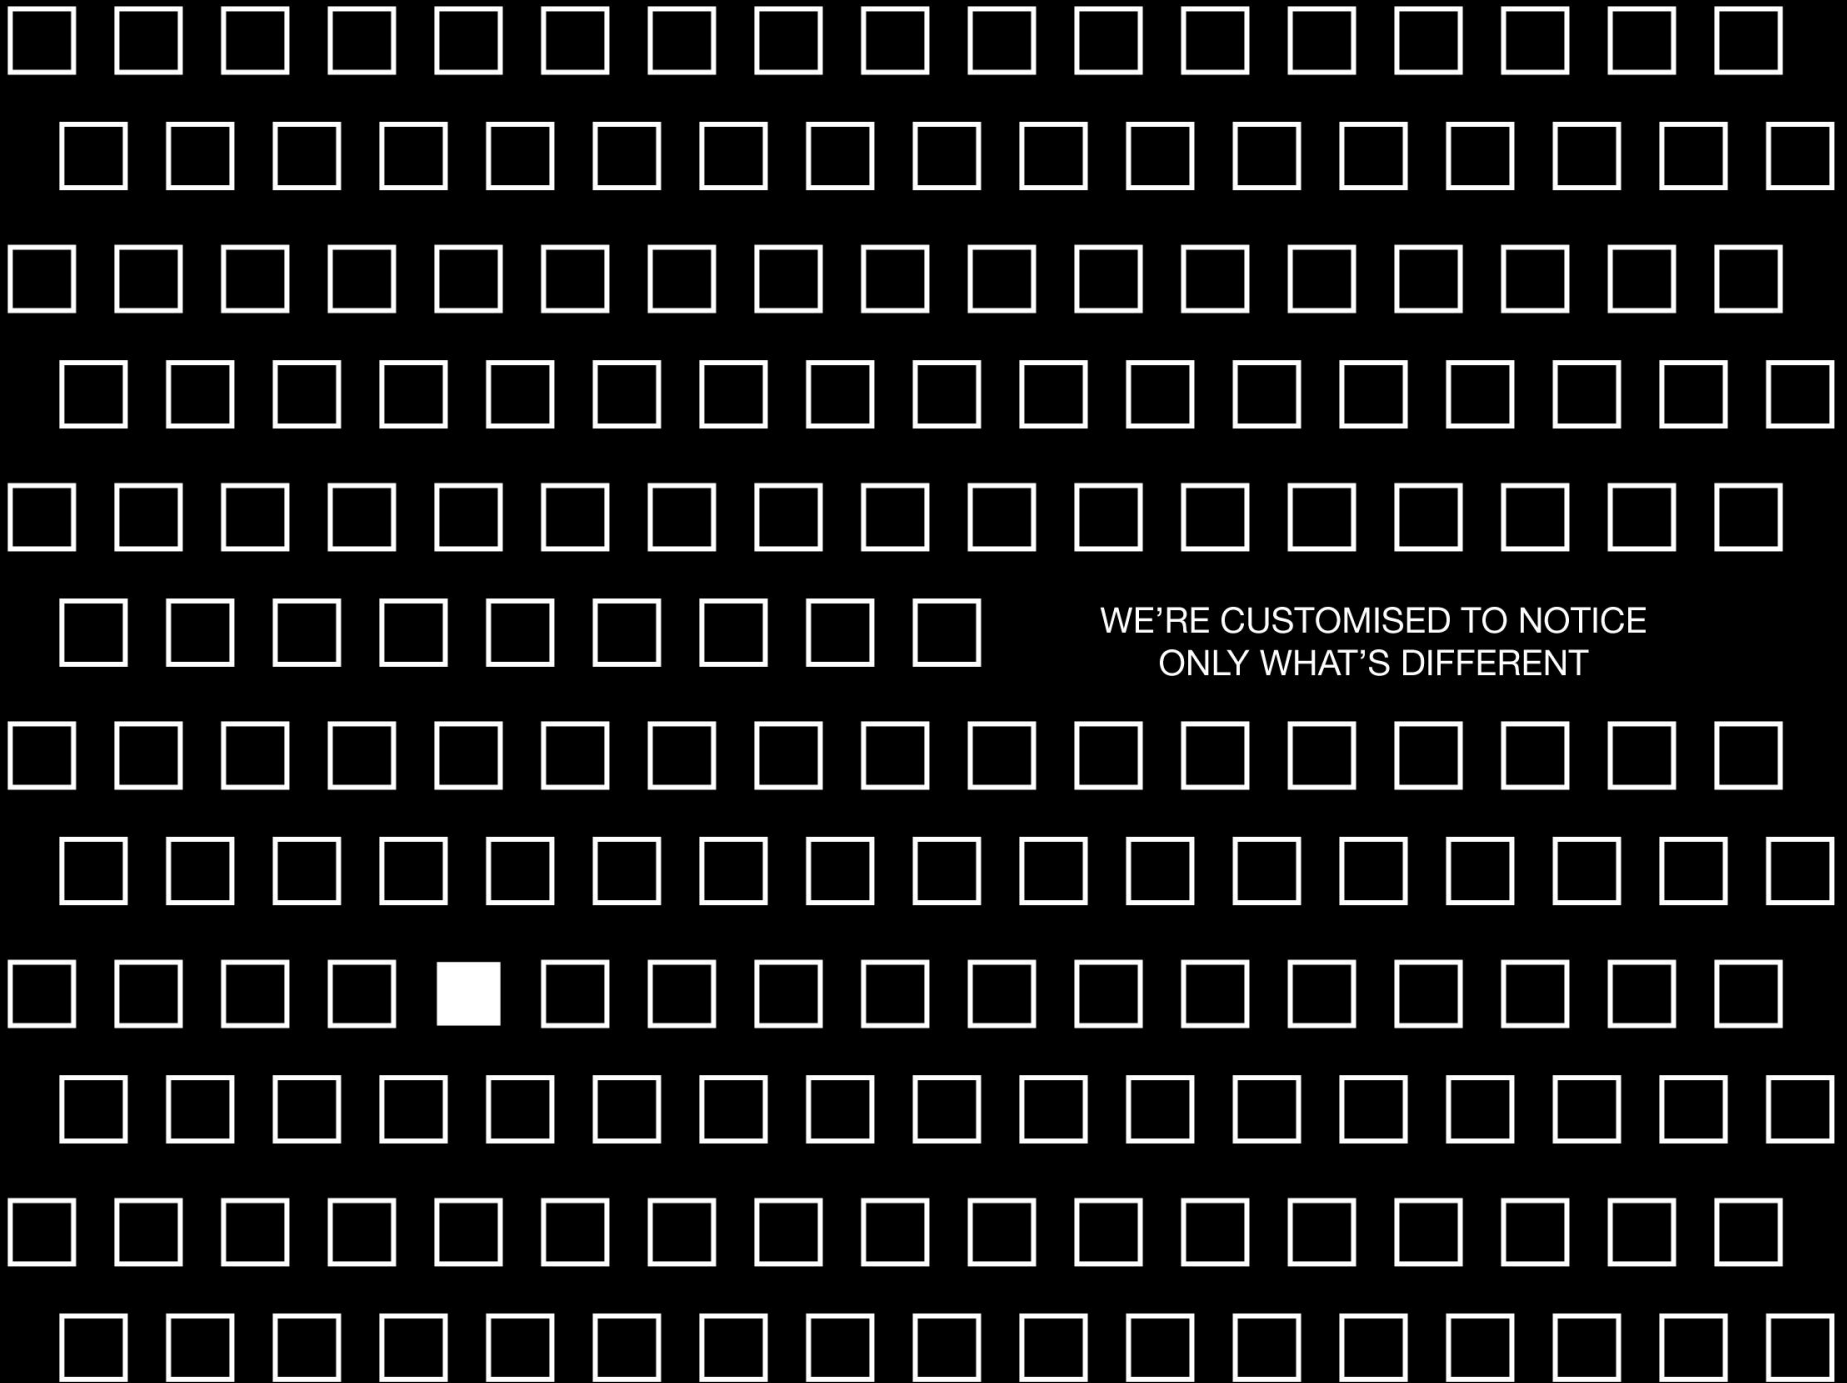

Validated ?

By doing all the above
we at ConsulSys now added the
left brain to the right brain

Strategy
+
Creativity

To build a sustainable
Competitive Advantage to make
Your Technology stand out

Because

WE'RE CUSTOMISED TO NOTICE
ONLY WHAT'S DIFFERENT

And ConsulSys has the
Expertise and Competency to
make your Technology look
different becoz.....

Why ConsulSys

- We know Technology
- We know people who Develop Technology
- We know people who Seek Technology
- We are the BRIDGE
- We are Fast & Furious.... Balanced
- We are Global, Resourceful, Realistic, Knowledgeable and Dependable

So think ConsulSys when you Seek for
Technology

We get you what you need and not what we
have.....

Thank You
